Profile Summary

Highly skilled Computer Vision Engineer with an MS in Computer Science and over 3 years of experience in developing and deploying deep learning models. Demonstrated proficiency in Python, C++, OpenCV, PyTorch, and TensorFlow, with a solid understanding of classical CV algorithms and modern architectures. Published researcher with experience in feature extraction, 3D vision, and real-time model optimization.

Professional Experience

- Developed and deployed machine learning models for production systems
- Optimized algorithms for performance and scalability
- Conducted research and implemented state-of-the-art techniques
- Implemented deep learning models using PyTorch and TensorFlow
- Published research findings in peer-reviewed conferences
- Collaborated with cross-functional teams to deliver AI-powered solutions
- Built end-to-end data pipelines for large-scale data processing

Technical Skills

Python, C++, TensorFlow, PyTorch, OpenCV, Computer Vision, Deep Learning, 3D Vision, Algorithm Optimization, Research, Cross-Functional Collaboration, Data Processing
